Mount Elgon Espresso - our espresso bean is 70-80% washed and 20-30% natural processed. It is a dark roast and you can expect notes of almonds, dried fruits such as raisins.

For Pour-Over we offer:

Great Lakes Sun-dried - is a sun-dried natural processed coffee.

Expect a medium-dark roast that leaves you with a characteristic coffee with notes of red berries, melon and a winery aftertaste.

Trace Kenya Supreme - Is an organic handpicked and washed coffee from the western part of Kenya.

It is a light-medium roast with intense sweetness, light fruity acidity, citrusy and notes of apricot.

Please note that our milky beverages such as café latte and cappuccino are served at a temperature of 60-70 °C. This is how we find the coffee best.

Let your server know if you want your milk extra hot.

Your server will offer you the varieties of non coffee beverages available.
